COUNTY SUPERINTENDENT OF
HIGHWAYS LEADS ROAD BUILD-
ERS OVER ROADS.

STUDY MANY TYPES OF ROADS

Experience Was Very Profitable To
Road Builders From Various
Parts of County.

County Superintendent of Highways L. B. Neighbour some time ago planned a tour of the townships of Lee county east of the Illinois Central railway, by the highway commissioners, supervisors and others interested in road building and maintenance, and yesterday his plan was put into effect with remarkable success. Mr. Neighbour supervised a caravan composed of auto loads of road men on a trip of about 100 miles. Perfect weather, fine roads and keen interest in the subject made the day a pleasant and profitable one for the members of the party.

Fourteen townships were visited, and their roads inspected by the party. At the entrance to each township the party was met by the commissioners and other officials of that district and escorted over the various types of roads, and in many places the party came to a halt and Prof. Neighbour and the men who had done the road work explained the methods employed in the building of the various types of highway.

Many Road Types.
Every type and material of road building was driven over and inspected and the men in the party had an most excellent opportunity to study road building methods of the different townships and compare them with others. It is believed that many valuable ideas were picked up by every man on the trip and the wisdom of the highway superintendent's plan

OUT OF THE WAY.

(Associated Press Leased Wire)
Springfield, Sept. 26—Ideal weather conditions for the week ending on Sept. 25 did much to put the Illinois corn crop out of danger from frost, according to the report of the weather bureau here today.

The crop is maturing nicely and some is beyond frost danger, but ten to fifteen days are needed to secure the rest. Some corn is being cut, the report says.

Famous German-American Banker In Call to His Countrymen Denounces Kaiser

(Associated Press)

Harrisburg, Pa., Sept. 26.—Urging Americans of German descent "to join in our country's righteous struggle against a people of their own blood, which, under the evil spell of a dreadful obsession has made itself the enemy of this peace loving nation" Otto H. Kahn, banker, of New York, before the Harrisburg Chamber of Commerce, today pleaded for support of the war policy of the administration at Washington.

Scoring Prussianism, which he said "with profound cunning has instilled into Germany the demoniacal obsession of power worship and world domination," Mr. Kahn traced the methods by which, he said, the Teutonic people have been "systematically poisoned by the Prussian ruling caste."

"The world fervently longs for peace. But there can be no peace answering to the true meaning of the word, no peace permitting the nations of the earth, great and small, to walk unarmed and unafraid, until the teaching and the leadership of the apostles of an outlaw creed shall have become discredited and hateful in the

LYCEUM COURSE FOR WINTER IS ARRANGED

CHURCHES AND Y. M. C. A. WILL
CO-OPERATE IN THIS YEAR'S
PROGRAM.

SIX STRONG NUMBERS ASSURED

All Will Be Given At Dixon Opera
House—Sale of Tickets Has
Started.

The committee which represents the various churches cooperating with the Y. M. C. A. in putting on the Red-path Lyceum course at the opera house, has commenced the sale of the tickets to the entertainment. The course promises to be well patronized and no effort or expense has been spared to make it a success. In view of the fact stated by Mr. Rohrer that there would perhaps be a scarcity of performances at the opera house this winter, due to the cancellation of the dates already booked, this entertainment course will help supply to Dixon folks high class numbers at very reasonable rates. Road companies this year are demanding guarantees for performances and when not given refuse to contract and even go so far as to cancel dates already scheduled.

The Dixon theatrical manager has had two such cancellations to date.

Is Strong Course.

This winter's course offers two lectures, one reader and three musical numbers. Thomas Brooks Fletcher, editor of the Marion, O. Tribune, who has been on the platform for ten years and ranks with the best, will open the course. He has lectured from coast to coast and from Florida to the Dominion, and has been recalled in almost every place. Rollo McBride, public defender of Pittsburgh, is the other lecturer. His work is to take care of the legal cases for people not able to secure legal advisors and to help men who have been in prison get a new start in life. His message is instructive and full of human interest. The reader, Miss MacLaren, needs no introduction to a Dixon audience, having appeared here before and gaining popularity at every performance. The Elsie Baker Concert company, a group of three artists, the Montague Light Opera company, giving a popular entertainment, and the Croatian Orchestra, a novelty musical company, will give to all who are fond of music a variety that will range from the classical to the popular.

The committee promoting the course consists of Mrs. Cooling, Mrs. F. Ballou, Mrs. Ray Miller, Mrs. Keller, Mrs. J. B. Crabtree, Mrs. D. E. Raymond, Mrs. N. Mossholder, Mrs. Beier, Miss Helen Brown, Miss Lillian Morris.

UNITED STATES TO HAVE 1600 VESSELS

GOVERNMENT'S SHIP BUILDING
PROGRAM HAS BEEN
ANNOUNCED.

WILL BE READY WITHIN YEAR

(Associated Press Leased Wire)

Washington, Sept. 26.—Within a little more than a year the United States will have an ocean-going merchant fleet of more than 1600 ships, aggregating 9,200,000 tons, the shipping board announced today in a statement giving details of the government's ship building program.

This amount compares with a present tonnage of 3,500,000, of which 700,000 represent German and Austrian ships under operation by the United States. The American ships available for overseas service number 458 with a tonnage of 2,871,000, and there are 117 German and Austrian ships.

FIRST FOOT BALL GAME SATURDAY

Dixon and Freeport High School
Teams Will Meet Here.

The first football game of the season will be played at the Dixon Country club grounds—the only available site—at 2:30 o'clock Saturday afternoon, when the Dixon and Freeport high school teams will meet. The Dixon boys have been practicing faithfully for the season's schedule and while they realize they are going up against one of the strongest teams in northern Illinois in their opening game, they are confident they will give a good account of themselves.

GERMANY AGREES TO EVACUATE BELGIUM

IN VERBAL NOTE TO THE PAPAL
NUNCIO CONDITIONS
ARE GIVEN.

(Associated Press Leased Wire)

London, Sept. 26.—Germany has agreed to evacuate Belgium certain conditions, it is declared in a German official statement, according to a dispatch from Berne given out by the Wireless Press.

Germany, it is stipulated, must have the right to develop her economic enterprises freely in Belgium, especially in Antwerp.

The proposal was made in a supplementary note to the Vatican reply to the peace initiative of Pope Benedict.

It was in the form of a verbal communication made by Foreign Secretary Kuehlmann to the papal Nuncio at Munich, wherein the foreign secretary specified the conditions under which Germany was willing to conclude peace on the basis of the evacuation of Belgium.

Gives Conditions.

The verbal note to the papal Nuncio said Germany would contribute a share of the compensation to be paid to Belgium for war damages. Belgium would be required, it said, to give a guarantee that any such menace as that which threatened Germany in 1914 would in the future be excluded. Belgium must undertake to maintain administrative separation of the Flanders and Walloon districts introduced by Germany, the note adds, because this separation corresponds to the wishes of a majority of the Belgian people and because Germany desires such separation on account of racial sympathy.

Raiders Came In Two Groups—Were

Fire.

(Associated Press Leased Wire)

London, Sept. 26.—Six persons were killed and 16 injured in the southeastern outskirts of London last night's air raid.

The first group of raiders which approached London was driven off by gun fire, not more than two penetrating the city's defenses. Half an hour later the second group of raiders was driven off while approaching London.

London, Sept. 26.—Two fleets of German airplanes raided London and British coast points again last night. This makes four raids within less than 24 hours. Field Marshal French reported "some twenty casualties" in the southeastern outskirts of London as a result of the raids. The first fleet of air raiders appeared early in the evening, crossing points on the Kent and Essex coasts. A few bombs were dropped.

As the hostile raiders approached the Thames estuary and London anti-aircraft guns and defense aerial corps opened a vigorous fire. The battle lasted only ten minutes. The Germans fled. After 40 minutes of quiet the anti-aircraft guns suddenly resumed firing. A new fleet of Germans had been sighted. One raider penetrated to the southeastern outskirts of London, where he dropped bombs, causing the casualties reported by the war office.

NEW GERMAN PARTY SUPPORTS TIRPITZ

SUBMARINE WARFARE IS RIGHT
DECLARATION MADE BY
PARTY.

GERMAN STATES MAY SECEDE

(Associated Press Leased Wire)

Copenhagen, Sept. 26.—The new German Fatherland party held its first open meeting in Berlin last night and the crowd in the hall was so enormous that an overflow meeting was held nearby. No government officials attended either meeting. Admiral von Tirpitz was the principal speaker.

He declared that submarine warfare is Germany's legal right and that Belgium now has her just deserts. He further declared that peace without a heavy war indemnity would mean Germany's defeat.

Amsterdam, Sept. 26.—Bavaria and Wurtemberg may secede from Germany and form a political connection with Austria if Prussia fails to yield on peace terms. This news reached here from a responsible source.

It is learned that Bavaria has sent a separate reply to the pope's peace terms.

Its text is awaited with the greatest interest, as it is believed it will contain specific peace terms.

The note was dispatched by Bavaria because the papal envoy is accredited to that state. The original Vatican note was dispatched to King Ludwig, who transmitted it to the kaiser.

Austria is exerting every possible pressure on Germany to make the peace desired by the entente. Bulgaria and Turkey are supporting the stand and are supported by Wurtemberg and Bavaria.

The Leipzig Volkszeitung, the leading minority Socialist newspaper, declares that Germany must accept President Wilson's doctrine of democratization or peace is impossible.

NORTH DIXON TREES ARE BEING RAVAGED

THE TUSsock CATERpillARS IN
LARGE NUMBERS ARE
FOUND.

LIFE OF TREES ENDANGERED

All Tenants and Property Owners
Should Take Prompt
Action.

Reports have come from various parts of our little city of the many tussock caterpillars which are being found ravaging the trees, particularly in the section about E. Boyd St. The caterpillars are now weaving their cocoons and in another year the trees will be sadly menaced or destroyed. The cocoons are being deposited all the way up the trunk of some of the trees and these should be destroyed. The caterpillars eat the leaves and where thick leave not a leaf on the tree, thus killing the tree. Every caterpillar seen, if in doubt as to its being a tussock, should be killed, and every cocoon found destroyed. The caterpillar is about an inch long, and has noticeable brown tufts at either end of the body which is furry and yellowish green in color. Every individual in the city should work for the destruction of these caterpillars, for but a few seeking to eliminate the pest may work in vain.

Three artificial measures will control the pest if thoroughly applied: the destruction of egg masses in winter; handling the trees in spring to prevent infestation from adjacent trees, and removing the trees in summer when defoliation is threatened.

Illinois Military Laws At Present Are Unsurpassed By Any State In Union

(Associated Press)

Springfield, Sept. 25.—Queries coming to Gov. Lowden and Adjutant General Dickson from other states, with reference to what has been done here for the protection of home interests with federalized troops removed, indicate, it is pointed out, that Illinois is in the forefront of those states organizing home guard forces and preparing to meet any future military exigencies.

In short Illinois has accomplished this:

First, organized, equipped and trained three regiments of infantry, under the state military code, to be kept in the state.

Second, Governor Lowden has called for 6000 volunteers in the Reserve militia authorized by the Buck bill passed by the Fiftyeth general assembly.

Third, 50 companies of the Illinois Council of Defense Volunteer training corps are in process of training in a score or more of Illinois towns and cities.

"Illinois military laws at present are not to be surpassed by any in the United States," Adjutant General Dickson stated today in discussing John J. Oglesby is chairman of the state's preparedness measures, military committee, is a more loosely formed organization, and is intended to serve as a feeder for the reserve militia re-serve supplementing the or-militia.

British Wedge Has Penetrated To

Objective.

(Associated Press Leased Wire)

With less than a week's wait after delivering the recent smashing blow at the German line in Flanders, the British resumed their drive, launching an attack on a wide front north-east and east of Ypres this morning.

The trend of the battle was only briefly indicated in the early statement, Field Marshal Haig reporting that his troops were making good progress.

Last Thursday's thrust pushed a wedge into the German lines approximately a mile further than it had been for several weeks.

Now After Lille.
The point of the wedge has now almost reached a line extending directly northward from the French city of Lille, the envelopment of which is assumed to be one of the great objectives of the Flanders attack in connection with the drive below Lille, carried out in the Battle of Arras early this year.

Simultaneously the British are continuing their aerial and naval attacks on the Belgian coast.

On the French front there has been only artillery and raiding operations.

LIMITED EXEMPTIONS MAY BE WAIVED NOW

LOCAL BOARD TO GIVE MEN THE
CHANCE TO GO TO CAMP
IN TURN.

In numerous Lee county cases in which appeals were taken or claims for discharge for agricultural reasons were filed with the District Board at Freeport the claims were allowed for a limited time only, the extension of time expiring on various dates running from Oct. 10 to Dec. 14. It has been called to the attention of the local board that in certain instances the men granted these limited extensions, in view of the fact that they were not granted absolute discharge, would prefer to waive these brief extensions and go to Camp Grant in their regular order, the same as they would have gone if no claim had been filed, and thereby avoid the possibility of entering the camp alone upon the expiration of the time allowed by the district board in each case and being compelled to take up the army work when the rest of the men in the camp had already had several weeks of hard drilling. If there are any more of these men in Lee county, having order numbers below 550, who desire to take advantage of the opportunity to enter the camp next week, they should notify the local board at Dixon at once.

Mr. and Mrs. Horace Jones, Mr.

and Mrs. Ned Brown, and Miss Cornelia Brown, of Batavia, were guests of Dr. and Mrs. Z. W. Moss on Sunday, the entire party, including Dr. and Mrs. Moss, driving to Rockford to see Camp Grant. Mr. and Mrs. Jones and Mr. and Mrs. Brown returned to Batavia that evening. Miss Brown remaining at the Dr. Moss home until today.

On Monday John Davies entertained Mrs. Moss, Miss Brown, Miss Mary Staples, and Miss Mary Todd with a boat ride to Lowell Park and supper at the park lodge.

Mrs. Moss entertained on Tuesday with a prettily appointed luncheon for her guest.

Musicals Was Delightful

The musicals, presented by a number of Dixon people and Mrs. Hey of Sterling, at the Grace Evangelical church last evening under the auspices of the September section of the Ladies' Aid Society, was delightful to all who had the good fortune to be present, and that was a goodly number. The numbers were all charmingly rendered. The platform was attractively decorated with flowers for the occasion. A silver of fering taken, resulted in a neat sum for the use of the Aid Section.

At Sunday Dinner

Mr. and Mrs. Floyd Osbaugh entertained at dinner Sunday at their home at Teal's Corners. Mr. and Mrs. Unger Wolf and three daughters, Lee Stauffer, Dave and Ross Hovey, Mr. and Mrs. G. Stitzel, of Dixon, Mr. and Mrs. G. Stitzel, of Dixon, and Mr. and Mrs. George Pruitt.

Drove to Dixon

Miss Rena Castle and Mrs. T. S. McKinney drove from Sterling to Dixon Tuesday. Mrs. McKinney's first long drive since her recent critical illness. Mrs. McKinney's friends here are rejoiced that she is recovering so nicely.

At Dinner

Mrs. Albert Stebbins entertained Mrs. Wilbur Purcell, of Lake Hamilton, Florida, and Mrs. E. B. Lloyd, of Dixon, at a dinner Monday evening.

Motored to Chicago

Dr. and Mrs. Geo. McGraham motored to Chicago Sunday with friends and spent the day visiting with their friends, returning early on Monday morning.

To Starved Rock

Mr. and Mrs. William Ford, Mr. and Mrs. DeWitt C. untler and John Ford motored to La Salle, Starved Rock, and Deer Park on Sunday.

Every Royal Neighbor Out

They do say that something out of the ordinary calls for the presence of every member at the Royal Neighbor meeting at Miller Hall tomorrow evening, but just what it is, is not being told. Just this much is given out—that every member should have a voice in the matter and probably will be sorry if not at the meeting. Candidates will also be balloted upon.

Prayer Service

Prayer Meeting will be held this evening at 7:30 o'clock at the First Presbyterian church.

WM. KENNEDY'S LETTER

(Continued from Page 1)

him. Wish there was some news to write you, but my other letters covered everything.

Tonight at supper for desert we were witnesses of a real good air battle. About 30 planes took part in it. Do not know which side was victorious.

It sure looks as if the Germans were about on their last legs. The prisoners the French bring in are mostly old men or mere boys.

Took a walk yesterday out about five miles to a little town. The Germans had laid waste. It sure was a shame.

We did quite a day's work today and had three very good meals, and such a dinner. Of course it was not served in courses or on a linen cloth.

One sits on the ground, a stump or anything handy and after eating a real "Honest to God" American nurse gave us a Fatima for desert. It sure tasted fine. First cigar for several days.

Tonight as we came marching in the first person I met was Ed. Kennedy from Omaha. You ought to have heard him yell, "Lucky dog, there are only nine letters waiting for you." Did not believe him at first, but nevertheless it was a fact. Though they were written before August 1 they were appreciated. Tell the girls to write often.

This sure has been a real day. The Y. M. C. A. just got located today. I will say that it is one of the greatest organizations on earth. No one can realize what the Y. M. C. A. does for soldiers until they find out. I will always extend them a vote of thanks. Tell this to Kirby Reed for me, will you "Dad?"

Wish you folks could hear the cannon roar and see all the aeroplanes. It sure is good for the nerves.

Enclosed you will find a picture taken on the last Sunday night in Chicago. Hope it will come through all right.

Will close for this time. Hoping that you are all well and that work is good. Love to all. Best regards to all.

Your loving son,

WILL.

P. S. Tell Boss to send me a couple of sacks of Bull Durham to see if it will get through.

Comiskey Park, Chicago, Can't Take Care of Fans.

(Associated Press Leased Wire)

Chicago, Sept. 26.—Nearly \$200,000 in cash and checks had been received at Comiskey Park in payment for reservations for the first three games of the World's Series, which opens Saturday, October 6th. It represents requests for close to 100,000 seats, while the capacity of the park is only 33,000.

DOG SHOW TO BE ATTRACTION

Rock Falls Corn Carnival Next Week Will Draw Many.

Something new in the way of free attractions at the Corn Carnival in Rock Falls, Ill., Oct. 4, 5 and 6, will be the dog show. This will be the greatest exhibition of high quality dogs. Rough Coated Scotch Collies—ever-

given west of New York. Many of these are imported and include several that have been viewed by royalty at the Crystal Palace in London. One of these, Champion Du Page Bayard of Tynon, is the world's only undefeated Collie.

Any Collie can be entered in this show. No pedigree is needed. There are many special prizes for which only farmers' dogs and local dogs can compete. The entries are divided into 18 classes. The dogs will be judged by Dr. George W. Clayton of Chicago.

Anyone wishing to enter a dog in this show should send the name of the dog, and if known the date of birth, name of sire and dam, and the name of the breeder, to Superintendent Dog Show, Rock Falls, Ill. Dogs cannot be shown unless previously entered so that their names will appear in the catalog of the show.

CHIROPRACTIC is a competent, positive, and permanent method of restoring health to the sick.

HEALTH is a normal condition of the human body and no other method gives such marvelous results as Chiropractic.

INTELLIGENCE of the cause of disease is why Chiropractors get such marvelous results.

RELIEF is secured in most cases that have been incurable under other methods, the patient oftentimes being restored to normal health.

ORGANS and tissues are regulated and controlled in their functions by the nerves.

PRESSURE on these nerves, as they emit from the spine is the cause of most diseases. As soon as this pressure is released, normal function results.

REASON and logic are behind the principles of this science, and the study of them will convince you that Chiropractic is right.

ACTIVITY of each and every organ depends on its nerve supply. Abnormal conditions are the direct result of nerve pressure, cutting off that supply.

CAUSE and effect are two different things. The Chiropractor adjusts the cause of your disease—thus eliminating the effect.

TRUTH will out, and Chiropractic will survive the most rigid investigation. No other science is founded on truer principles than this science.

IMPINGED nerves result in ill health and Chiropractic adjustments will remove that pressure, and restore normal conditions.

CONSEQUENTLY—It is logical and reasonable that you should take Chiropractic adjustments and get well—to stay well.

HOW ABOUT DAD?

There's been a lot written about brave mothers giving their sons to war, says Berton Braley. And no one will quarrel with words of praise in their behalf. It is impossible to overestimate the sacrifice they make in the service of their country.

But I want to talk about the fathers.

A boy's babyhood and youth belong very largely to his mother. His father and he may be the best of pals, but because the father is at his work all day, while the mother is at home, there cannot be the same intimacy.

It is not until the boy verges on manhood, till he reaches that time in life when he is ready to play the game with men, that father and son find themselves in a closer relationship. Then Dad discovers that the "kid" talks his language and the "kid" learns that Dad is a bully good companion and a friend who understands his point of view as no mother, however loving, can hope to understand.

This is the time when the father and son plan together on the boy's future, when they have long smoke-talks and look more deeply into each other's hearts and souls than ever before.

And it is just at this place in life that war steps in and separates them. It is just at this period that the nation calls upon the son to serve, and the father to make the sacrifice. The mother has had the past, but the father gives up the future.

For if the boy does not come back, the father cannot have quite the store of memories of the mother, and if he does come back—as most of them will—he will have spent the time that might have been the father's with other men and in other scenes. And though he may be a bigger, better and stronger man for it, Dad and he will never quite touch the intimacy they would otherwise have known.

So, without belittling the beauty and holiness of the mother's sacrifice, this brief word is spoken for the brave, quiet, tearless sacrifice of "Dad."

BOOKS FOR THE SOLDIERS

Dixon is expected to furnish \$500 toward the national fund to supply libraries to the soldiers. Only a small portion of that sum has been collected up to this time, and unless there is a very liberal giving on the part of Dixon people during the rest of this week, Dixon will fall away behind with its fund.

This money should be raised before the end of this month, which comes on Sunday next. That leaves only the remaining days of this week for you to come forward and give your share.

Good reading material will be a mighty important factor in shaping the lives of these new soldiers, and it will also do a great deal toward making their lives in camp pleasant and profitable.

Take your donation of money to Miss Mary Wynn, Librarian, at the Dixon Public Library, and do it today.

City In Brief

Mr. Baode of the Wieskoff millinery house of Chicago, was here yesterday.

Send the Evening Telegraph to our son who has joined the army navy—it's as good as a letter from home each day. The price by mail is \$3.00 a year, less than 1 cent a day.

Mrs. R. R. Hess spent Monday in Chicago on business for her millinery.

Mr. and Mrs. Phil Miller drove to Earlville today.

—If you are looking for office rooms, large light, hardwood finish, running water, electric light and gas, you will find them in the Evening Telegraph Building. Phone No. 5.

S. R. Harris of Chicago will be at the Nachusa House over Sunday, coming to Dixon to see parties in regard to renting his farm.

—Everyone will attend the football game next Saturday at the Dixon Country Club.

John Bishop of Bishop, Ill., is visiting his mother, Mrs. C. E. Bishop.

Miss Bess Decker returned today from a visit in Chicago.

—All goods sold by Wolf Chemical Co. are guaranteed to give satisfaction. Sold by Prescott & Schildberg.

Mr. and Mrs. Fred Smith returned from Chicago today.

Phil Miller and son Lloyd came out from the city last evening.

—Wanted, some one to bake three loaves of salt rising bread every week. Phone No. 5.

H. Raffenberg & Son, real estate and insurance, have moved from the third floor of the Dixon National bank building across the street to the old Dixon National.

—Why not send your soldier boy the Evening Telegraph. It will cost but \$3.30 a year by mail or \$2.00 or six months.

W. W. Woolley, who is at Lake Waubesa, has already made one good catch of fish—perch and blue gills—according to friends. J. Schuele has joined him at the lake for a brief outing.

—Everyone is invited to attend the football game Saturday at the Dixon Country Club.

—FOR RENT. Large modern downstairs room. Enquire at Tetric's Grocery.

—Attend the football game between Dixon and Freeport at the Country Club Saturday at 2:30.

Mr. and Mrs. W. M. Fred of Oxford, Pa., have left for the state of Nevada after several days' visit at the home of Mr. and Mrs. eGo. Toot in this city. Mr. Fred expects to look after his land interests in that state.

—Encourage the high school boys by attending the foot ball game Saturday at the Country Club. Freeport and Dixon boys will play an interesting game.

ROAD OFFICIALS ON TOUR OF INSPECTION

(Continued from Page 1)

was clearly demonstrated.

Brick roads, concrete roads, macadam roads, gravel roads, earth roads, oiled roads, plain graded earth roads, and roads untreated in any manner, and roads in all stages of repair were examined. New and old roads of the same material were inspected.

Much Progress.

One fact was established, and that was that with the money available the road builders of the various townships of Lee county have, in most instances, done exceedingly well and are profiting by all that modern science in road building offers in the way of keeping the county's highways up to standard.

Pawpaw Entertains.

The longest stop of the day was at Pawpaw, where the road men were entertained with a very acceptable and delicious meal, given by the business men of Pawpaw and prepared and served by the ladies of the Red Cross of Pawpaw. After lunch the party proceeded to Wyoming township, where Philip Neibergall, single commissioner in Wyoming, gave a demonstration with the township tractor and road drag. The road drag is Mr. Neibergall's own patent, and it was such a success that many of the men from other townships took measurements and made drawings with a view of copying the drag for their own work. Wyoming township, and Sublette township were found to have the most complete set of road building and repairing machinery, owning tractors, road rollers, etc., beside all of the lesser machinery of road building.

When the party left Dixon early yesterday, it was composed of half a dozen cars, and others joined the string until at noon there were about 15 cars in the line.

Among the road officials and others who were with the party were:

P. O. Boyd, Geo. O. Johnson, H. L. Rhoads, commissioners of highways of Willow Creek township; Charles Herman, town clerk of Willow Creek; J. P. Brechon, James Bollman, Fred Bollman, commissioners of highways of South Dixon township; Wilbur Cortright, supervisor of South Dixon township; Ernest Dysart, supervisor of Nachusa township; Ephraim Weigle, commissioner of Nachusa township; Lou Henderson, clerk of Nachusa township; Mr. Currans of Nachusa; U. Grant Dysart, supervisor of Viola township; Horace H. Dysart, commissioner of highways of China township; A. B. Wicker, clerk of China township; Philip Neibergall, commissioner of highways of Wyoming township; John Drew, supervisor of Palmyra township; Frank Brauer, highway commissioner of Palmyra township; Horace Gilbert, town clerk of Palmyra township; Walter Ettinger of Palmyra; T. F. Drew, commissioner of highways of Nelson township; W. W. Geiger, clerk of Nelson township; Andrew Nicholson, supervisor of Alto township; B. L. Henning, commissioner of highways of Alto township; Messrs. Pogue and Mc Bride of Wyoming township; John M. Sterling, supervisor of Dixon township; James Penny, commissioner of highways of Dixon; E. C. Parsons of Neighbour, county superintendent of highways of Dixon; E. C. Parsons of Dixon; Orville S. Storm, editor of the Leader and Geo. B. Shaw, editor of the Telegraph.

ARGENTINA BREAKS WITH THE KAISER

(Continued from page 1)

the government, which is said to lean toward a breaking off of relations with Germany.

(Among South American republics Brazil and Bolivia broke relations with Germany last spring. If Argentina, Uruguay and Paraguay follow this lead they will be in company with four Central American republics: Costa Rica, Guatemala, Honduras and San Domingo.)

Buenos Aires, Sept. 25.—By a vote of 53 to 18 the Argentine chamber of deputies voted to support a break in relations with Germany.

The vote was on a motion "to proceed to break relations with Germany."

The chamber's vote completes Argentina's legislative approval of severance of relations with Berlin. The senate last week voted 23 to 1 in favor of such a step.

Under the Argentine constitutional law authorities believe President Irigoyen can override this legislative approval by a veto if he so desires. Public opinion here, however, supported the belief that the administration would follow the course recommended by the senate and deputies.

Pro-German Strike On.

Argentina is paralyzed in a general strike, which tied up all railroads, cut off telegraphic communication and threatens famine in scores of cities.

It was learned on high authority that Germans are paying many strikers' expenses to prevent them returning to work. One hundred and twenty thousand men are already out.

ON AUTO TRIP.

Drs. E. A. Sickels and Willard Thompson and L. A. Pitcher and H. A. Roe left early this morning for a ten days' automobile tour through Wisconsin.

LICENSED TO WED.

A marriage license has been issued to Roy Jones and Miss Nellie Kaiser, both of Chicago.

"LIKE A LETTER FROM HOME TO THE BOYS GONE TO WAR"

THAT is what The Dixon Evening Telegraph will mean to the boys who have gone from this county and this city to enter the training camps and various branches of the army and navy.

News of their home, their friends, and the happenings of the community will mean more to these boys who have gone to defend the nation's honor than can be estimated in words.

The Evening Telegraph costs \$3.00 per year, \$2.00 for six months, and \$1.00 for three months, sent by mail anywhere in the United States.

If your boy has gone to war, send him his home paper. If you have no boy in the army, send the paper to some one else's boy. You may be sure of his appreciation.

WOULD OUST LA FOLLETTE

Senator Accused of Disloyal Talk by Minnesota Body.

St. Paul, Minn., Sept. 26.—Expulsion of Senator Robert M. La Follette of Wisconsin from the United States senate is demanded in a petition addressed to that body by the Minnesota public safety commission.

Senator La Follette is accused in the commission resolution of making an address at a public meeting before a large audience at the Nonpartisan league convention last Thursday night in this city.

The commission also referred to the United States district attorney the matter of the conduct of Senator La Follette and others at the same meeting with a request that the parties, if found to have violated any federal statutes, be vigorously prosecuted.

Chicago, Sept. 26.—Congress may be asked to expel Senator Robert M. La Follette and possibly a couple of members of the house of representatives, if plans outlined by the executive committee of the Chicago branch of the National Security league are carried forward. La Follette's recent Minneapolis speech, in which, lawyers hold, he resorted to treasonable utterances, will form the basis of the resolutions. It is probable that the message to the congress will be submitted to the Roosevelt meeting tonight.

—Send your soldier boy the Dixon Evening Telegraph. Price by mail \$2.00 for six months or \$3.00 a year.

ALBERT SPALDING.

Albert Spalding, the world-renowned American violinist, has canceled his entire concert tour of the United States and Canada for the coming season and joined the foreign department of the Aviation corps at Mineola, Long Island, as an interpreter. Mr. Spalding is an accomplished linguist, speaking five languages, and has made extensive concert tours of France, Germany, Austria, Russia and Italy. The contingent to which he is attached will probably sail soon for the other side to complete training somewhere back of the trenches.

MINERS MAKE WAGE DEMANDS

Conference Announces Increases Asked—Operators May Refuse.

Washington, Sept. 26.—Representatives of miners of the central bituminous field formulated wage demands which threaten to tie up a large part of the nation's coal production. The demands will be submitted to the operators today. Unless the dispute is adjusted the government may be forced to take control of the nation's fuel supply.

The miners and operators heard an impassioned plea by Coal Dictator Garfield against suspension of production. Then the miners, headed by John P. White, president of the United Mine Workers, and an assistant to the coal dictator, went into session.

Their proposals for wage increases, were declared by the operators to be utterly impossible. The miners demanded:

1. An increase of 15 cents a ton for pick and machine coal, at all basic points.
2. The percentage of the advance on machine mining to be applied to all differentials between thick and thin coal veins.
3. An advance of \$1.90 a day on the day basis, now \$2.35 to \$3.60.
4. Twenty per cent advance on all dead work and yardage.

It was predicted they would be refused. Ohio, Illinois, Indiana and western Pennsylvania are represented in the conferences.

THOMPSON IN SENATE RACE

Mayor of Chicago Makes Announcement as Roosevelt Arrives.

Chicago, Sept. 26.—Mayor Thompson, over his signature, gave to the newspapers an announcement of his candidacy to succeed Senator James Hamilton Lewis. The announcement came simultaneously with the arrival in Chicago of Colonel Roosevelt, who is to address the National Security league rally in the Stockyards pavilion tonight. The league recently dropped the mayor from its executive committee and later requested action by federal and state authorities on his alleged "unpatriotic utterances."

LIMITS CASH FOR TRAVELERS

Persons Leaving U. S. May Carry Only \$5,400.

Washington, Sept. 26.—Federal reserve board officials, under the president's proclamation restricting currency and gold exports, announced that travelers leaving the United States would be permitted to carry with them a maximum of \$5,000 in currency, \$200 in silver and \$200 in gold.

Good Seed -- and Good Clothes

WHEN you farmers are ready to plant your crops, do you buy the cheapest seed you can find, regardless of quality? No, indeed, you don't; you get the best your money can buy; you know that paying a few cents or dollars more may mean hundreds of dollars more when the crops are harvested.

The same thing is true of clothes; by paying a few cents or dollars more for such goods as Hart Schaffner & Marx make, you get the quality that means many dollars saved in longer wear and greater satisfaction.

WARNING?

You'll have to be a little more careful these days in buying clothes. Just because the price in wool has advanced many manufacturers of clothing are adulterating their fabrics with too much cotton, in order to maintain a low price.

That means, when you buy adulterated goods, that you are getting less for your money than before. And the presence of cotton in the suit makes it wear out and lose its shape and style sooner.

You can't afford to invest in cheap clothes now. It will pay you in terms of wear and satisfaction to buy standard all-wool clothes.

And right here we want to emphasize this point; here we guarantee satisfaction absolutely and "your satisfaction" means to us just what satisfaction means to you—it's "up to you" in other words; you can have your money back if you want it

Could anything be fairer or squarer?

You'll find here a big stock of these good clothes—in Hart Schaffner & Marx goods

\$22.50, \$25, \$28.50, \$30, \$35.

(Made to Measure \$30 to \$50)

You'll find here all wool values from other reliable makers, guaranteed as fully as higher priced goods

\$18.50, \$20, \$22.50, \$25

We have a limited supply of the less expensive clothes, you'll find extra values here at
\$15.00 and \$16.50

MY FOURTEEN MONTHS AT THE FRONT

An American Boy's
Baptism of Fire

By WILLIAM J. ROBINSON

Copyright, Little, Brown & Co.

The most graphic account of the great war that has yet been written comes from the pen of a twenty-two-year-old Boston boy, who has just returned from France, where as dragoon guardman, dispatch rider and motor-car driver he served fourteen months under the British flag. Out of thirty-one motorcycle dispatch riders he was one of four survivors.

It was one of the nerviest things I ever saw. He saved himself by the chance of running through our fire, for when he was so low he was out of range of the anti-aircraft guns.

Air raids do not always prove as dangerous as they sound. About three or four days before I left the front we had a flock of twenty-three German aeroplanes over our camp, and they dropped bombs for nearly fifteen minutes. Everybody got under cover, and the total loss of life caused by the raid was one mule. If this were always the case the Zeppelins and Aviatiks would have to go out of business.

There was very little of interest after Loos. Every day it was the same old routine—up to the firing line in the morning and back down again at night. Once in awhile we would let ourselves in for a young bombardment or would have rather a hot session in the trenches when we would happen to get there at the right time, but as far as any important happenings there was none.

I will never forget the last day I spent at the front. It seemed to me that the Germans must have put up a job on me, and just at the moment I was sure that I was coming out of it all right and that the war was over for me they were trying to get me.

I was ordered to report with my car to one of our new officers. I did so, and we left for the firing line. When we reached the divisional signal office we left the car and mounted our horses to finish the journey. We got to a place called Krustadt and stayed there about half an hour. I hitched my horse to the gate of an old deserted house and went over to one of our ammunition columns to see if I could get some hot tea. When I came back about fifteen minutes later I found my poor horse down with his front leg gone. A shell had exploded in the yard of this house and had blown his leg clear off. There was nothing for me to do but to shoot him and put the poor beast out of his misery.

I hunted around among the different units in the vicinity until I found another horse, and then I went up and reported to my officer. We visited some of our batteries and came back to Krustadt. The officer told me that he would not need me during the afternoon, but to meet him at 5 o'clock that evening. We hitched our horses to a tree, and the officer went off. Very soon after he had gone some more officers came along and hitched their horses to the same tree. Altogether there were six tied to the one tree.

I went over to the Royal Engineers' place and proceeded to make myself at home. I was feeling happy, for I knew that this was my last day at the front, and I was hoping to be home for Christmas. Of course I told everybody I met all about my good luck, and we were having a regular little farewell dinner, only we had tea instead of champagne. After it was all over some of the boys went away, and I proceeded to make myself comfortable on a couch the fellows had built up in the corner.

I had been there about fifteen minutes when for some reason or other I got up and went over and sat down by the brazier. I hadn't been off that couch three minutes when a shrapnel shell burst directly over the hut, and I should say fully twenty pieces came through the roof. They went through the floor as if it had been so much paper, and about half a dozen pieces penetrated the couch I had been lying on not five minutes before. There were three of us in the hut at the time, and not one of us was so much as scratched.

The shells were coming over pretty thick then, so we went for the dugouts on the dead run. As I passed the tree where our horses were tethered a high explosive shell burst in the middle of them and butted them all over the landscape.

Believe me, I didn't pause one second. I just kept on going. I entered a dugout that had about a foot and a half of water in it, but I lay right down in it and was only too glad to stay there. The Germans were keeping up a sweeping fire, trying to locate our batteries, and they continued until nearly 7 o'clock that evening.

When 3 o'clock came and I was supposed to meet my officers I stayed right where I was, for I knew that I would not be expected to go out and wait by that tree when the shells were falling the way they were then. At 7 o'clock the fire had pretty nearly ceased, so I ambled out to the tree to see what had become of the officer. He was sitting on the ground with his back against the tree. I told him what had happened, and he asked me if I knew where we could find some more horses.

I said I did and that it was right on our way back, so we walked about a half mile until we came to the transport camp, and there we got two other horses and proceeded to the place where we had left the car.

Here the officer decided we would

have some tea, so I went into a tent where there were some fellows I knew and begged some grub. I had just commenced to eat when a shell screamed over and went into the ground about twenty or thirty feet from the corner of the tent. It didn't explode, so we were all right, but I decided that right here was where I quit, and I went out and sat in the car until the officer was ready.

But my troubles were not over yet. On the way back to camp one of the back wheels came off the car and nearly dumped us into the ditch. The officer got a lift down in another car, and I set to work to try to put back the wheel. It was dark, and the road was muddy and soft, and everything seemed to go wrong. The train left at 1 o'clock in the morning, and I was nearly beside myself for fear I would miss it.

When I finally did get in it was after 11, and I had to do some tall hustling to get my things packed, get my grant and tickets and change my clothes for dry ones and walk half a mile to the station to catch the train. I did it, though, and at 4 o'clock in the afternoon I was in London.

THE END.

GARAGE GOES TO SEA

Is Installed on Liners for Passengers' Cars.

The latest convenience to be added to the modern ocean liner is the garage. So many wealthy people are taking their touring cars with them when they travel that the garage was fast becoming a necessity, to replace the old method of crating the car and swinging it over the side with a crane.

The new garage has its door in the side of the ship, and when the liner is docked, the voyager may drive all the way into the hold.

As a result of the disturbances in Atlantic travel in the last two years, these new garages make their first appearances on trans-Pacific boats.

ICE IS CUT NEW WAY

Electric Saw Cuts Long Strips From Surface.

Only six years ago winter ice was cut by driving a horse over a slippery field. The horse dragged a sharp-edged ice plow which dug deeply into the ice and finally cut it into pieces as small as was possible by such a method.

Now a single electrically driven, rapidly rotating blade like a buzz-saw drives itself across the field, cutting into large oblong pieces. It is guided and pushed by the man behind. After this, the pieces are floated into a large mill where they are rapidly cut into small cakes.

That Made Them Pay.

A small tradesman once put up the following sign in his shop: "Please don't ask for credit, as a refusal often offends."

Finding that this had little effect, and that his credit book was attaining great proportions, he resolved on trying another plan, and immediately fixed up another notice in place of the former one: "The names and addresses of all those who buy goods at this shop, and don't pay for them, can be seen in the credit book on payment of a fee of twopence."

The result was miraculous. Not only did the curious pay their twopences by the dozen, but those owing accounts speedily settled them until the credit book was a thing of the past.

Couldn't Remember the Name.

At a council meeting a member said a person could not enjoy or even distinguish between drinks in the dark. A baillie offered to bet that blindfolded he could name any drink given him.

The bet was accepted and an adjournment was made.

The baillie was blindfolded and the test began. He drank everything submitted, smacked his lips, and correctly named the drink, until the taker was in despair.

"Try him with water," whispered a member, and the hint was taken. Sip, smack, sip, a shake of the head. "I canna jist mind the name o' this, but I mind o' tastin' it when I was a wee laddie!"

He Came In.

George felt he was safe. They were standing at the front gate.

"Won't you come into the parlor and sit a little while, George, dear?"

"No-o, I think not," replied George, hesitatingly.

"I wish you would," the girl went on; "it's awful lonesome! Mother has gone out, and father is upstairs, groaning with rheumatism in the

legs." "Both legs?" asked George. "Yes, both legs." "Then I'll come in."

A Heckler Heckled.

The late Dr. W. R. Thomas, who was Pierpont Morgan's rector at Highland Falls, did not believe in Socialism, and in Socialistic arguments he often exercised his trenchant wit to advantage.

A Highland Falls man once interrupted Doctor Thomas in an address to shout:

"If we all had equal opportunities—" But here Doctor Thomas in his turn interrupted, saying quickly:

"We should not all be equal to them."

BRITISH REPULSE FOE

(Continued from page 1)

London, Sept. 26.—The Germans delivered a powerful attack against the British east of Ypres. They succeeded in gaining a foothold in the British lines on narrow fronts. Hand-to-hand fighting ensued, and after another strong German attack the British drove them from their newly won positions and re-established their line in its entirety, according to Field Marshal Haig's report.

A successful raid by British naval aviators on the German airbase at Varsseene, Flanders, is announced in an official statement from the admiralty. A light between a naval aerial patrol and a German squadron, in which one German machine was destroyed and another driven down out of control, also is reported.

Paris, Sept. 26.—Liquid fire was used by the Germans in an attack on the French lines in the Beaumont region north of Verdun. The French, however, repulsed the assault with heavy losses to the Germans, the war office announced.

The bombardment that has been in progress on the east bank of the Meuse in the neighborhood of Chaume wood was kept up by the German guns during the night.

The report says the artillery action was very spirited in the region of Hurbise and Craonne and on the right bank of the Meuse in the sector of Bois Le Chaume.

French aviators dropped 10,000 kilos (about 22,000 pounds) of projectiles on various objectives, notably in the railway stations at Cambrai, Luxembourg and Bréville. Several fires were noted in the structures bombarded.

Berlin, Sept. 26.—Trenches over a front of 400 meters near Beaumont, north of Verdun, were wrested from the French and maintained against counterattacks, the war office announces.

TO CURB SEDITIOUS PRESS

Postmaster General Given Power in Trading-With-Enemy Act.

Washington, Sept. 26.—The death warrant of seditious newspapers was signed here. The house finally passed the trading-with-the-enemy act, giving Postmaster General Burleson almost unlimited powers for the suppression of treasonable publications.

"I shall enforce the law," Mr. Burleson said. "I shall enforce it so that my actions will always pass the scrutiny of a court. The law commands me to root out the treasonable and seditious publications, and they will have to go. Under the law any mail clerk or carrier who handles such a publication would be guilty of crime. You can be sure that I am going to protect my employees. No publication that does not conform will be admitted to the mails."

MITCHELL'S LEAD CUT TO 252

Ballots Cast in Last Wednesday's Primary Are Being Inspected.

New York, Sept. 26.—Inspection of the ballots cast in the Republican primary last Wednesday, showed a gain in three assembly districts of 83 votes for former State Senator William M. Bennett over Mayor John Purroy Mitchell for the Republican nomination for mayor. The ballots cast in 59 other assembly districts in the city are yet to be inspected. It appears that the mayor's lead now has been cut to 252 votes.

Minister of War Asserts No Separate Peace Is Planned.

Petrograd, Sept. 26.—Assurances have been received from France and England that they will not conclude a separate peace to the detriment of Russia. General Verkhovsky told the soldiers' and workmen's delegates. Reports have been current in Russia that the two nations were planning a peace move in regard to which Russia would not be consulted.

STRIKE AT U. S. NAVY YARD

5,000 Men Quit Pending Agreement on New Wage Scale.

Norfolk, Va., Sept. 25.—Approximately 5,000 men, employed at the navy yard here struck pending an agreement on a new wage scale. Work in many departments of the plant was said to have been virtually suspended.

Portland, Ore., Sept. 25.—Pursuant to action taken at a mass meeting of workmen, 4,000 men employed in steel shipyards here went out on strike. About 3,000 men employed in wooden shipyards already are on strike.

Penn. Corners, Sept. 24.—Preaching services at the Christian church next Sunday morning and evening by the pastor, Rev. I. F. Seyster, Sunday School preceding the service.

NORTH DIXON TREES ARE BEING RAVAGED

(Continued from page 1)

In winter and spring the trunks and large branches should be examined for egg masses, together with the surrounding objects under which they may be secreted, and all within reach should be destroyed. Those beyond convenient reach may be killed by touching each mass with a sponge or brush attached to the end of a long pole and dipped in crude creosote. Because the female tussock is wingless, it does not attempt to move from the cocoon in which she originated. Insect spreads from tree to tree only in the caterpillar stage, and an unfested tree may be protected by banding the trunk so caterpillars can not climb beyond the band, except where the branches of trees intermingle in such a way the caterpillars may pass from one to the other. The bands should be applied soon after the caterpillars appear in spring and be renewed as they become useless through the action of rains. The best material for this purpose is tree-tanglefoot, applied in liquid form with a brush, in a band about nine inches wide; or bands of cotton batting about four inches wide may be tied closely about the tree by a string passed around the middle of the band in such a way that the cotton may be turned down over it. As a temporary substitute for the liquid tanglefoot, ordinary fly paper may be used. It is less satisfactory, however, and much less lasting.

The Wm. Sheeley family and Mr. and Mrs. J. F. Bovey were Sunday visitors at the T. N. Cunningham home as were the Gordon Cunningham family.

The Bovey and Lee Stauffer families spent Sunday at the Ross Bovey home near Nachusa.

Jesse Brantner and family of Maryland were Sunday visitors here. C. C. Barnett and George Trump, with their families, spent Sunday at the cantonment at Rockford.

Edward Everley, T. N. Cunningham and family, J. F. Bovey, Mrs. S. B. Nettz, Roy and Elmer Nettz, Wm. Stauffer and wife, and John Ambrose traded in Dixon Saturday.

Frank Cunningham and daughters are experiencing a pleasant visit in Iowa with friends.

Miss Lulu Funk of Pine Creek was a recent visitor with Mrs. Frank Bovey at the Corners.

Mrs. G. R. Rhodes, Mrs. Kate Johnson, and Mrs. D. M. Fahrney, of Chicago, were very recent visitors at the Corners on Friday.

Mrs. Lee Brink and friend of Nachusa were Sunday visitors here.

John Heckman of Oak Ridge passed through here Saturday.

Mrs. John Ambrose and daughter Nellie have gone to Maryland for an extended visit with relatives.

David Boley and wife of Stratford were Sunday visitors at the Conrad Stime home.

Miss Agnes Newcomer of Rockford is a visitor at the Funk home in Pine Creek.

Penn. Corners, Sept. 25.—Lee Boley and Clayton Smith left for the State of Maryland Saturday morning; the trip will be made by auto.

Erastus Dimick arrived home Wednesday from a week's visit with Indiana friends.

Miss Annie Dockey is a visitor at the "Corners."

The meetings that are being held at the Christian Church are progressing nicely with several accessions. Monday evening Polo will send a delegation. Tuesday evening Dixon church will be represented.

Mrs. F. W. Bovey was entertained Monday evening at the Erastus Dimick home.

Miss Grace Funk returned to Oregon recently.

EARTH, SANDCLAY, AND GRAVEL ROADS

Suggestions for the Construction of the Most Common Types of Highways Made by Office of Public Roads and Rural Engineering of the U. S. Department of Agriculture in Recent Bulletin.

Nearly 2,400,000 miles of the two and a half million miles of public roads in the United States are of earth, sandclay, or gravel, according to recent statistics gathered by the Office of Public Roads and Rural Engineering of the U. S. Department of Agriculture. Roads of these materials are, therefore, of predominant importance in most communities of the country and probably will remain so for many years. For this reason the Office of Public Roads and Rural Engineering has issued as Department of Agriculture Bulletin No. 463 a comprehensive discussion of the materials, methods of construction, and maintenance for the three types.

Most roads are located originally as earth roads, the bulletin points out. In such location work, the fact that the road eventually may develop into an important highway should be kept constantly in mind and routes should be chosen which will not have to be radically changed, perhaps at great expense, at some future time. The tendency in many rural communities to locate all new roads along land lines has been responsible for much waste, it is pointed out.

The importance of grade, drainage, and width of roads, as well as the materials of which they are built, is emphasized in the publication, and the machinery and tools used in constructing roads of the different materials

are described. The necessity for adequate maintenance is brought out, and in this connection directions are given for the making and use of road drags. Typical specifications for the construction of roads from earth, sandclay, and gravel are included in an appendix to the bulletin.

Arsenical Spray Used to Control Plum Pest

Spraying with arsenate of lead with a soapy spreader and sticker proved most effective, in tests conducted by the Ohio Experiment Station, to control the plum curculio, a beetle that attacks plums, cherries, apples and other fruits, causing them to fall off or to be gnarled, wormy and worthless for market.

Two to three pounds of arsenate of lead paste is mixed with 2-3-50 Bordeaux and two pounds of soft soap and applied just after the plums or cherries have bloomed, then again in about two weeks, and if necessary in the latter part of July to destroy young beetles emerging from the ground at that time. The Bordeaux mixture, added to control rots, is made by dissolving two pounds of copper sulphate (blue vitriol) in hot water, adding this solution to the milk of lime obtained by slaking three pounds of quicklime, and then diluting the mixture of these materials with water to make 50 gallons. Where these sprays were applied at the times indicated curculio beetles were completely checked in a single season.

This insect, which is generally distributed throughout eastern United States, emerges from winter quarters and begins feeding on young fruit and leaves in April and May, much depending upon weather conditions. Eggs are laid in a hole cut in the young fruit. These punctures alone lead to deformed, unsalable fruit, and the larva feeding within causes further injury. Often the largest part of the crop of fruit falls because of such attacks, and the insect afterward leaves the fruit and completes its life cycle in the ground.

THIS MEDICINE WOMEN VALUE

Positively Relieves the Suffering.

More Convincing Proof.

When Lydia E. Pinkham's Vegetable Compound was first introduced its curative powers were doubted and had to be proved. But the proof came, and gradually the use of it spread over the whole country. Now that hundreds of thousands of women have experienced the most beneficial effects from its use its value has become generally recognized and it is now the standard medicine for women's ills.

The following letter is only one of the thousands on our files. — "I cannot feel that I have done my duty until I tell what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female troubles so I could hardly drag around and do my work. I was very nervous, and had dizzy spells, heat flashes, and headaches until life was a burden. My husband brought me a bottle of Lydia E. Pinkham's Vegetable Compound and I soon began to improve. I continued its use and am now free from all pains and aches that made life a burden. You may use this letter in any way you like for I want the world to know what a grand medicine Lydia E. Pinkham's Vegetable Compound is."

Our Illustrates. In various ways there were gathered into this country at the time of the last census 5,500,000 illiterates. Were these segregated they would make a nation larger than Switzerland or as large as Denmark and Norway combined. It would be a nation without Bibles, without songbooks, without magazines or newspapers, without banks, without railways, without pens, pencils or writing paper and one supplied with only the coarsest commodities of trade. I heard an illiterate woman say that she could not recognize a two dollar bill until she was twenty-five years of age. GOV. McCALL IN THE LEAD

Returns Show He Defeated Cushing for Gubernatorial Nomination.

Boston, Sept. 26.—Gov. Samuel W. McCall will undoubtedly be the Republican nominee again this fall. Early returns on the primary election show that he defeated his rival for the gubernatorial nomination, former Lieut. Gov. G. D. Cushing, by a ratio of 4 to 1. Forty-two towns and cities outside of Boston gave McCall 6,000 votes and Cushing but 1,500. The returns show that the governor carried every ward in Boston, and the city by a vote of 7,341 to 2,967.

AIR RAID PERILS AMERICAN TROOPS

(Continued from page 1)

Monday night. A large number were at various places of amusement and on the streets when the warning signals were sounded.

"Raids Call for Reprisals."

The Daily Mail in an editorial commenting on the night's air raid calls for reprisals, saying: "The British people would view these attacks with entire indifference if they knew that every one of them was followed by an attack in which twice the weight of bombs dropped here was showered on German towns. Let's hit the Germans; hit them hard."

Bombs Kill 15; Hurt 70.

Fifteen persons were killed and seventy injured in the air raid over London.

The Zeppelins which crossed the Yorkshire and Lincolnshire coasts did not penetrate inland, being driven off by gunfire. Three women were injured.

Only two airplanes at the most penetrated the defenses of London, it is reported officially.

Two Air Raids Reported.

The following official report was given out by Lord French, commander of the home defenses:

"Airplane Raid.—The latest reports concerning the airplane raid show that the group of raiders which approached London was driven off by the fire of anti-aircraft guns. Only one, or at the most, two machines penetrated the defenses. The casualties in all the raided districts reported by the police up to the present are: Killed, 15; injured, 70. The material damage was not great.

Report on Airship Raid.

"Airship Raid.—Enemy airships crossed the Yorkshire and Lincolnshire coasts between midnight and 3 a. m. There is no evidence of their having penetrated to any distance inland. They were driven off by gunfire from various defended localities which they attempted to approach. Bombs were dropped at one coast town, three women being slightly injured. Little damage was caused."

CONDITIONS IN RUSSIA BAD

Charles R. Crane Tells of Chaotic Situation.

Stockholm, Sept. 26.—Charles R. Crane of the American commission to Russia, who remained in Petrograd after the return of the other members of the mission body, declared Russia will not conclude a separate peace. Mr. Crane continued:

"There is chaos in Russia. It is exceedingly difficult to draw facts from the confused situation or to make prophecies in view of rapidly changing conditions. Events move with terrific speed. No one can tell today what will happen tomorrow."

"The Korniloff affair forced Premier Kerensky to place himself in the hands of the bolsheviks. He has been trying to shake off their clutches ever since."

"It is impossible to predict whether the premier will be able to withstand the bolshevik strength. The bolsheviks are the real counter-revolutionists and peace-makers."

"Conditions this winter in the big cities will be very unhappy. The peasants are refusing to sell food to the large centers, because the money they receive buys so little."

FIRE CAUSES MILLION LOSS

Mill and Lumber Destroyed at Beaudette, Minn., by Forest Fire.

Chicago, Sept. 26.—E. A. Engler, president of the E. A. Engler Lumber company, with offices in Chicago and a sawmill and lumber plant at Beaudette, Minn., learned that forest fires had completely destroyed the mill and the entire stock of lumber of over 20,000,000 feet. The loss is close to \$1,000,000.

NOTED AIRMAN IS SLAIN

France Mourns Death of Capt. Georges Guynemer.

Missing After Thrilling Battle With German Air Squadron—Officially Reported Killed in Action.

Paris, Sept. 26.—A squadron of German airplanes swept over the French trenches on Monday. Capt. Georges Guynemer and members of Aerial Squadron No. 2 took the air and engaged in the enemy machines. After a terrific battle, lasting hours, the Teuton craft returned to their own lines, but when Aerial Squadron No. 3 landed it was found that Guynemer was missing. Yesterday he was officially reported as "killed in action" and all France mourns the loss of its idol, the hero of France.

The record of Captain Guynemer reads like the wildest dream of an imaginative fictionist. Up to September 10 he was credited officially with having shot down 50 German planes in the course of two years and three months. Unofficial reports gave him credit for 52.

When the war was declared Guynemer was only nineteen years old. He obtained appointment to the aviation corps and after a course of training at Pau was sent to the front.

In July, 1915, Guynemer shot down his first plane.

On June 6 of this year he shot down four planes in one day, downing two of them in 37 seconds.

He was wounded three times during the course of his army life. In March, 1916, while driving a new plane, he underestimated its speed and flew past his Teutonic adversary, putting himself at a disadvantage. The enemy opened fire and Guynemer was wounded in the arm and face. Driving with one hand, he executed a brilliant landing, while his foe flew off, thinking the famous pilot was dead. After a few weeks in a Paris hospital he returned to his squadron.

The feeling of his countrymen was shown for him when he led the French aviation section in the parade of the American army on the Fourth of July. He was pelted with flowers all along the route and his praise shouted at every step.

The French government bestowed on him the Cross of the Legion of Honor, the military medal, the war cross and every other decoration and honor at its command.

GREATEST CROP EVER KNOWN

United States Has Enough Food to Feed the World.

Washington, Sept. 26.—There is enough food in sight to win the war—enough to feed the world. The biggest crop of food products ever grown in the United States, which means the biggest ever grown by any country in the world, is ripe for the harvest.

The array in the furrows has won its first battle. According to figures of the department of agriculture there will be harvested 3,248,000,000 bushels of corn, 500,000,000 bushels in excess of the average crop; 462,000,000 bushels of white potatoes, 100,000,000 bushels in excess of the average. The same proportion of increase applies to practically all other food crops except wheat.

GALE HEADED FOR HAVANA

Hurricane Is Advancing at Rate of 100 Miles an Hour.

Havana, Sept. 26.—A hurricane which it was thought had passed and left Cuba has turned and is advancing at the rate of 100 miles an hour toward Havana. The center is expected to pass west of the city in a north-westerly direction. The storm is now ravaging Pinar del Rio province. It is raining torrents here. The president has suspended audiences in order to join his family at his country seat. The police are taking measures to protect life. The sugar crop may be curtailed.

What They Meant.

A Scotch clergyman named Fraser claimed the title and estates of Lord Lovat. He tried on the trial of the case to establish his pedigree by producing an ancestral watch on which were engraved the letters S. F. The claimant alleged that these letters were the initials of his ancestor, the notorious Simon Fraser, Lord Lovat, beheaded in 1747 for supporting the young pretender. The letters, engraved under the regulator, were shown to stand for "Slow, Fast," and the case was laughed out of court.
